

## **Strawberry Pie Recipe**

*(Lucinda Rudin)*

This was once a well-guarded secret recipe that a restaurant used. (No secret now).

Bake two pie shells and allow to cool.

2 qts. strawberries, sliced

2 cups water

2 cups sugar (I personally think this is too much sugar and would cut it to 1 1/2 cups)

4 Tbs corn starch

1 large pkg strawberry Jello

Combine water, sugar and corn starch and cook until thick and clear, stirring frequently. Stir in Jello. Allow to cool. Pour  $\frac{1}{4}$  of mixture into each pie shell. Add  $\frac{1}{2}$  the strawberries to each shell and pour remaining mixture, divided equally, over each one. Cool in refrigerator. Top with whipped cream or ice cream, as desired.
